

I believe that the LPFM stations should not have priority over FM translator service especially the Air One radio service. I know that Air One radio has impacted my neighborhood greatly. Because of the Air One station I could listen to Christian Alternative Music any time and me and my family have become better people just by listening to this station in Arizona 88.7 FM. I also have family in California that listen to Air One also. So by kicking Air One Radio off the Air you are not helping or improving radio.
